APPLICATION TO PURCHASE

(Applicant)

TO THE COMMISSIONER OF THE GENERAL LAND OFFICE, AUSTIN, TEXAS:

1. I hereby apply to purchase without condition of settlement the following described area, believed to be unsurveyed land belonging to the public free school fund, under the provisions of an Act approved June 19, 1939, and other laws relating to the sale of unsurveyed school land.

2. The said tract of land is situated in Harris County, Texas, about 16 miles East from Houston, Texas, the county seat, and is bounded

as follows, to-wit:

On the North by Old River and by that part of the South line of the Josiah T. Harrell Survey beginning at the point on the San Jacinto River where the South line of the Josiah T. Harrell Survey touches said river, and running thence West along the South line of the Josiah T. Harrell Survey to the point where said line touches Old River; on the West by Old River; on the South by a line drawn from the Southeast corner of the B. N. Garrett Survey due East to the San Jacinto River; on the East by the San Jacinto River.

3. The names and addresses of all owners or claimants of said land, or any interest therein, and of leases of every character thereon, adjoining, overlapping or including the said land, as ascertained from the records of the General Land Office, Austin, Texas, from the office of the County Clerk and the tax rolls of

Harris County, and from facts known to applicant, are as follows, to-wit:

Mary Niedermeier,	P. O. Box 230,	Longview, Texas
S. F. Carter Sr. Estate,		Houston, Texas
Susan F. Conklin,	2202 Ave. D.,	Galveston, Texas

Dear Mr. Giles:

I feel very badly that you have had to return these notes and again I am going to have to plead an error of transposition. I am sending you my balance sheet in the rough so that you can see where the error was made. It is in the first course. I am glad to say that our D.M.D. sheet and the map are correct. The error was made only in the field notes. We called this course "N. 5° 30' E." in the field notes, which to conform with the map and balance sheet, should have been "N. 5° 30' W.".

Of course, your calculator used the wrong course. Therefore, the only change necessary will be in the field notes which I have corrected and I am returning herewith. The map is absolutely O.K. as is.

Prior to sending this to you I had my sheet checked twice and I believe it is absolutely correct. I have carried my decimal out to the second place while your calculator has dropped the hundredths and that is why I am sending you my sheet because the accumulation of errors will answer the difference of our two sheets after the

first course is transposed from the east to the west.

I shall try to be more careful hereafter and trust that you have not lost confidence in my work because of these errors and calculations.

Since the other three tracts are correct, I am recording them in my books and will you be so kind as to advise me as soon as the enclosed sheet is checked by your calculator so that I may also record them as soon as possible.

Thanking you for this and past kindnessess, I am,

WHEREAS, on the 30th day of August 1940, an application to lease an area of alleged vacant land in Harris County, was filed in the General Land Office by Nathan Minchen, under the provisions of an Act approved June 19, 1939, said area being bounded as follows:

On the north by Old River and by that part of the South line of the Josiah T. Harrell Survey beginning at the point on the San Jacinto River where the South line of the Josiah T. Harrell Survey touches said river, and running thence West along the South line of the Josiah T. Harrell Survey to the point where said line touches Old River; on the West by Old River; on the South by a line drawn from the southeast corner of the B. H. Garrett Survey due East to the San Jacinto River; on the East by the San Jacinto River.

WHEREAS, Mr. A. C. Stinson, licensed land surveyor, was duly appointed by the Commissioner of the General Land Office to make a survey of said area and has now returned field notes and a report to the Commissioner, covering an alleged area of vacant land containing 447.49 acres.

NOW, THEREFORE, I, Bascom Giles, Commissioner of the General Land Office, hereby give you notice that a public hearing will be held in the General Land Office, Austin, Texas on said application to lease, to determine whether a vacancy exists. Said hearing will start at 10 o'clock A. M. January 24, 1941, at which time all interested parties will be accorded an opportunity to be heard on the question of vacancy.

Dear Sir:

I am enclosing duplicate original of application to purchase the following described area believed to be unsurveyed school land belonging to the Public Free School Fund under the provisions of the Act approved June 19, 1939 and other laws relating to the sale of unsurveyed school land.

The tract of land situated in Harris County, Texas, about sixteen miles East of Houston, is bounded, as indicated in the application, as follows:

On the North by Old River and by that part of the South line of the Josiah T. Harrell Survey beginning at the point on the San Jacinto River where the South line of the Josiah T. Harrell Survey touches said river, and running thence West along the South line of the Josiah T. Harrell Survey to the point where said line touches Old River; on the West by Old River; on the South by a line drawn from the Southeast corner of the B. N. Garrett Survey due East to the San Jacinto River; and on the East by the San Jacinto River.

The application was subscribed to by me on August 29th, 1940, and shows the certificate of A. C. Stimson, County Surveyor, Harris County, Texas, to the effect that it was filed for record on August 29th, 1940 at 3:35 P. M., and recorded in Volume 13 , page 4 , Surveyor's Office, Harris County, Texas.

I am also enclosing cashier's check for \$100.00 as filing fee.

CC 100 — I trust the application will receive your approval.

Very truly yours,

Nathan Minchen

Re: S. F. 14238-14239

Dear Mr. Minchen:

I estimate the cost of proceeding under your two applications to purchase areas of alleged vacant unsurveyed School Land, mentioned above, to be \$625.00. I am, therefore, requesting that you deposit that sum with this office so that we may proceed with the surveying.

House Bill 9, under which you filed, allows you thirty days from the date of this letter to make this deposit. Failure to deposit this sum within the required time causes all your rights under your files to become null and void.

As soon as we have received your remittance we shall appoint Mr. A. C. Stimson who desires to begin work as quickly as possible before the rainy season begins.

REC.

NOV 12 1940

REFERRED TO MAP

NOVEMBER 9th 1940

Mr. Clint Small, Jr.,
General Land Office,
Austin, Texas.

Dear Mr. Small:

In re-checking the 458.84 acre tract known as the Minchen S.F. 14,239 I find that my draftsman made an error in the south line of said tract and shows distances, both passing, and total that does not agree with my D.M.D. sheet. I later wrote fieldnotes from this map that is in error. These changes do not affect the acreage nor any other line except the south one and that is the last paragraph of the fieldnotes that I left for your approval before filing them in my office.

That paragraph should read as follows instead of as it is on the copy I left with you:

" THENCE S. 89°24'W., along the north line of said Tract "B", at 1133.35 vrs. set a pipe in the east waters edge of a southern point of Lost Lake, at 1498.65 vrs. set another pipe in the west water's edge of said Lost Lake, at 2227.05 vrs. pass the N.W. Corner of said Tract "B" as marked by a pipe set in the eastern water's edge of Lost Lake from which the San Jacinto Monument brs. S. 33°15'E.; and continuing, S. 89°24'W., out across the waters of Lost Lake, at 2500.85 vrs. pass the N.E. Corner of a 31.78 acre tract known as Tract "A" of th Nathan Minchen S.F. 14,238 as marked by an iron pipe from which a 12" pin oak marked "X" brs. S. 81°W. 9.86 vrs. an another pin oak 8" in dia. brs. N. 44°15'W. 16.74 vrs., in all 2567.59 vrs. to the place of beginning."

I will, of course, make these corrections on both map and fieldnotes as soon as you have returned them to me for final recording in my books but I am sending this correction in hopes it will reach your calculator before it causes him too much trouble. I hope he hasn't started yet.

Did you have any luck with the ducks at Bay City ? If not give us of the Galveston Bay environs a visit. I hear from several farmer friends that they are flying high, wide and handsome down around Chambers County.

With cordial good wishes I am

Dear Mr. Stimson

I am returning, under separate cover, the plat and preliminary field notes submitted by you on the above mentioned applications.

On the field notes you had prepared for S. F. 14238, Tract "A", I have made several suggested corrections in red pencil. You will find attached to each of the field notes our balance sheet. You will notice that the field notes on S. F. 14238, Tract "B", do not close by 48.4 vrs.

It also appears from examination of these field notes that you have included within the metes and bounds of the description on S. F. 14238, Tract "B", and S. F. 14239, large portions of Lost Lake. The area covered by the Lake should be excluded from the field notes themselves. It will be necessary for you to re-write the field notes on S. F. 14239 so as to exclude Lost Lake therefrom. In doing so it will be necessary to have two tracts. The field notes of tract "B", S. F. 14238, will have to be re-written to exclude the portion of Lost Lake included in them. Since you have your meander lines already indicated on your plat this should not be at all difficult.

I believe that with these corrections we can proceed to file these field notes.

Sincerely yours,
